

NEW FUNCTIONALITY

Disclaimer approved by the Recipient as documentary evidence for FENIN.
Functionality approved by FENIN.

When a Receiver requests a Grant, a mandatory Disclaimer text (individual for each company by his Legal Department) must be approved.

The request is received by the Sponsoring Company that (if applicable) accepts it by assigning a maximum economic amount (visible to the Agency) for such Grant.

PGB generates a PDF that includes:

- Name and surname, position and institution of the Health Care Professional (Head of Service / Department) who has made the request including date and time it has been sent.
- Disclaimer text accepted by it.
- Name and surname, position of the person in charge of the Sponsoring Company that has accepted the request including date and time in which it has been accepted.
- Details of the event, type of Grant (specialist, resident, others: nurses etc. - Registration, Travel, Accommodation) and amount assigned.
- Details of the Agency that is in charge of the management of the Educational Grant to the Health Care Professional, who has been appointed by the Head of Service / Department of the Health Institution without knowledge of the Sponsoring Company.
- Possibility of segmented export: ZIP folders can be exported with all PDF documents.

Integration - Events Validation System (SVE in Spanish) - Code of Ethics of the Health Technology Sector

PGB has API integration enabled with the FENIN Event Validation System, a functionality that had been requested by all Companies since the beginning of the application of the Code.

Through this integration, the Sponsoring Companies, at the time of evaluating the Request to accept or reject, will be able to check if the event - with its visible traffic light - is approved by FENIN without having to visit the website of FENIN Code of Ethics to verify its state.

INTRODUCTION

The Federación Española de Empresas de Tecnología Sanitaria (FENIN), Spanish MedTech's branch, approved on December 20, 2016 its New Code of Ethical Business Practice, in order to guarantee a stable collaboration framework between HCP HealthCare Professionals, HCO HealthCare Organizations, patient associations, and industry.

The Code of Ethical Business Practice - FENIN includes all the modifications approved by MedTech Europe, applied in Spain since January 2018 with two innovations that deserve to be highlighted:

Establish the exclusive use of indirect sponsorship in third-party organised educational events so that it is not the companies that decide what Health Care Professionals will benefit from medical training at such events.

Ensure the transparency of all financial contributions made by companies to support medical training at third-party organised educational events

WHY PGB® ?

A Compliant Platform

Checked and approved by FENIN - MEDTECH Spain

A platform adapted to GDPR

PGB complies with the new Data Protection regulations

Technologically leading platform

Developed by JTG JoinTogether Group

A Consensus Platform

Developed as a team

An user-friendly platform

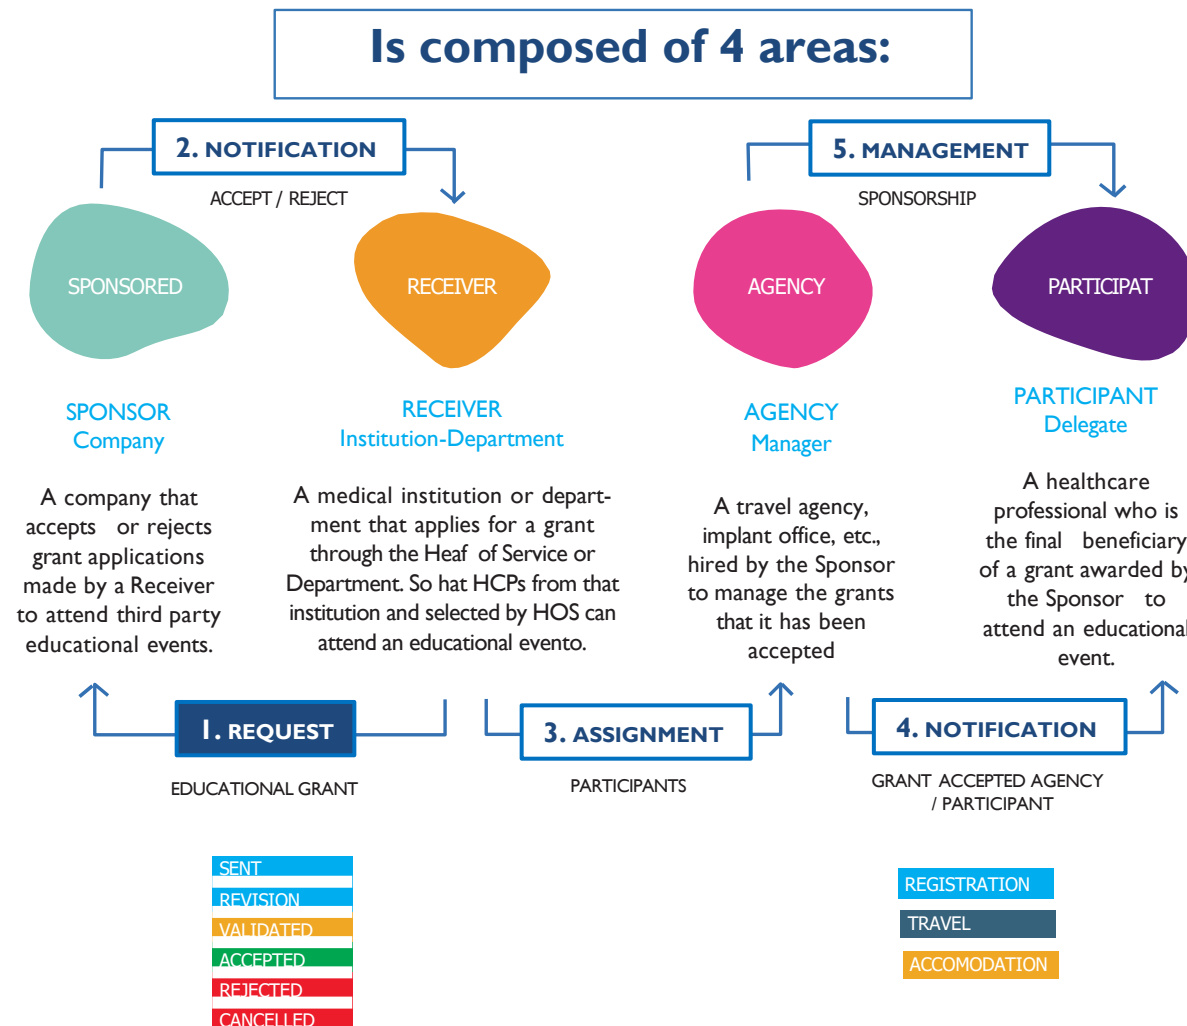

Intuitive Functions

WHAT IS PGB® ?

PGB is an online platform to request and manage Educational Grants that can be received by a Health Care Professional to attend an event.

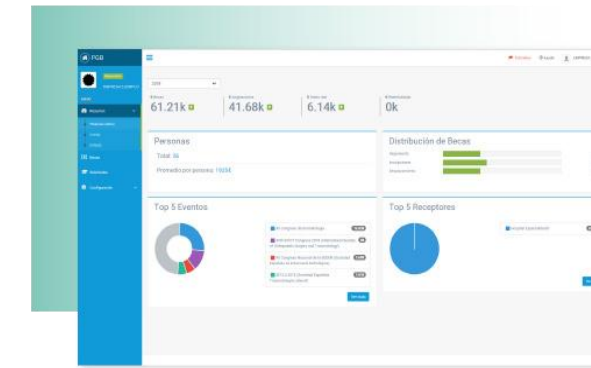

It has been developed in order to offer an effective solution that complies with the requirements stated in the Code of Ethical Business Practice - Medical Technology Sector and at the same time allows to a proper management by all parties involved in the process.

Is composed of 4 areas:

PGB is freely licensed to all agencies and implants of the sector without applying any type of restriction or exclusivity, and has corporate framework agreements with the main agencies.

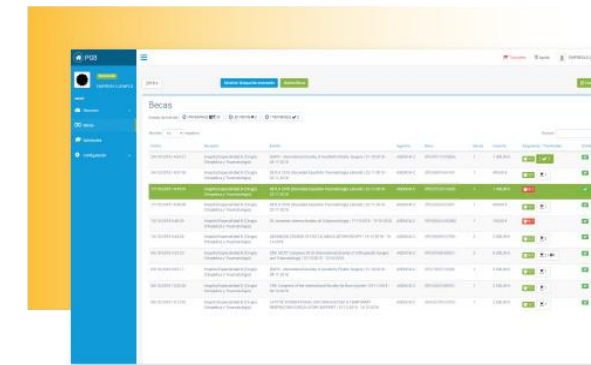

KEY FUNCTIONS

1. Complete Management Area

The Grants by the Sponsoring Company are updated in real time each time the Agency enters the amount in its PGB area. Global or segmented budget is available by Division or Department.

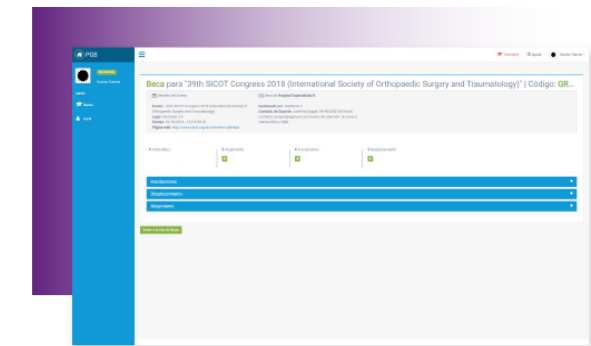

CONTROL EXPENSES

2. Traceability of the entire process

Management status updated in real time of the process of receiving the registration vouchers - travel - accommodation of the participant.

REAL-TIME MONITORING

3. Privated area of each Participant

Where all the registration vouchers - travel - accommodation are uploaded and stored.

USED ONLY BY PROFESSIONAL GRANT BENEFICIARIES

4. Constantly updating

Since its launch in February 2018, PGB has added many new functions in response to our customers' suggestions, in order to offer a platform that covers all their needs.

WE ARE ALWAYS OPEN TO NEW IDEAS AND PROPOSALS
